14th May 2009

Dear To Whom This May Concern,

Over the years Narel Smallgoods Pty Ltd has been purchasing machinery from Springer Company. During that period we have purchased a range of high quality and efficient machinery such as smoke houses, tumbler, mixers, mincer, injectors, vacuum filler and transport trollers. We are a regular client for Springer's wood chips. With the purchase of theses new machineries and equipment there has been a greater development on the volume of production that we turnover. The machines are well established, easy to use, and reliable and most importantly cost efficient.

With these high quality machines we are able to effectively develop our business.

Narel Smallgoods Pty Ltd, highly recommends Springer Company products to any business or co operation that requires high quality, competent and most importantly a cost effective asset towards there business for the high quality results.

Kind Regards

Amanda Narel
Managing Director.
